Completing the course in a time exceeding the maximum time - Maximum Time
Not stopping on deployment of the STOP signal – Maximum Time

Maximum Time

The maximum time is the quickest time in class for that run plus 20 seconds.

There will be 6 tests laid out throughout the day. It is planned to run the event in three groups of tests using the same layouts all day. There should be a minimum of two runs in each group.

20) All times will count. In the event of a tie the fastest run on the first run on Test 1 will determine the tie, then the fastest on the second run of Test 1, etc. until the tie is decided. To be classed as a finisher, a competitor must start a minimum of half the tests.

21) The starting signal will be “in your own time”

Knutsford & District Motor Club Limited

Timing will be by smartphone using the Sapphire Solutions timing system to the previous tenth of a second.

Timing will start when the leading wheel crosses the timing line and stops when the leading wheel cross the finish line. Competitors must stop before the baulk line.

22) The STOP signal, in the form of a red flag, will be displayed because of an obstruction on the course, whether this is an object or personnel. If the red flag is shown you must come to a complete stop where you are and await further instructions from the marshal. If you are stopped for a red flag you will be allowed a re-run so just re-join the queue. A test maximum will be awarded to any competitor that fails to stop.

23) All other Motorsport UK NCRs apply as written except that:-

All competitors must walk each course before the timed runs start for that course.
No practicing will be allowed.
